DEGREE* MONITORING PROCEDURE

Section	Quality		
Approval Date	19.09.2018	**Approved by**	Academic Board
Next Review	04.03.2020	**Responsibility**	Executive Director - Learning Innovation and Delivery
Last Reviewed	04.03.2019	**Key Evaluation Question**	3 & 4

PURPOSE

To ensure that following initial approval, NMIT degrees (and related qualifications) continue to meet academic standards.

To provide assurance to NZQA, students and all stakeholders that the qualification is being delivered in accordance with the requirements of the initial approval and accreditation and that the qualification is still degree worthy and still meets the needs of stakeholders. [*def NZQA*]

SCOPE

*All NMIT programmes of study leading to diplomas, degrees and postgraduate qualifications at levels 7-10.

The first on-site monitoring visit will typically be made at the beginning of the second year of the delivery of the programme and take into account the availability of staff and learners. The visits will take place annually after that.

Degree monitoring is not intended to replace the ongoing internal self-assessment activities undertaken by the programme area to monitor, review and improve the quality of their programmes. Rather, the external monitoring complements the internal monitoring by triangulating evidence of programme performance.

See Appendix One for table of current NMIT programmes of study levels 7 – 10.

DEFINITIONS

A list of academic terminology and the glossary of Māori terms – Kupu - are located in section 2 of the NMIT Academic Statute.

The definitions of additional specialist terms used in this procedure are listed below:

Degree Monitoring Report	A report produced by the monitor providing the main outcome of any monitoring visit. It details the monitor's professional opinion on the quality of the institution's delivery of the programme.
Self-Monitoring status	A status conferred on an institution by NZQA when the NZQA monitor considers that a programme and its delivery are stable and that all conditions for changing the institution's monitoring status are met. [def: NZQA] If a programme has self-monitoring status, monitoring by an external monitor still occurs, and a Self-Assessment Report is still submitted to NZQA.

Curriculum Manager	ANNUALLY
	Before March each year, provide anticipated dates for monitoring visits to the Head of Academic and Quality
	PLANNING FOR THE VISIT
	Ensuring monitoring visits occur annually, preferably in the first 3-4 months of the year.
	Notifying the Head of Academic and Quality, CE, Directorate and NZQA of impending, confirmed monitors' visits.
	Preparing a detailed agenda for the visit, to include a meeting between the monitor and the Head of Academic and Quality.
	Hosting the monitor's visit in accordance with the confirmed Agenda.
	AFTER THE VISIT
	Submitting copy of the final Degree Monitor's Report to Academic Committee for review.
	Submitting a copy of the final Degree Monitor's Report to the Head of Academic and Quality for centralised tracking and monitoring purposes.
	Ensuring that any requirements or recommendations in the Report are identified and responded to; an appropriate action plan is designed and implemented to manage the issues; and ongoing self-assessment continues in order to capture and provide evidence of continual improvement.
Head of Academic and Quality	Maintaining and reviewing an annual schedule of External Monitoring visits, including whether there were any Recommendations or Requirements in the final Report, based on information supplied by the Curriculum Manager.
	Draft any letters to NZQA to be sent on the CE's behalf. (e.g. requesting Self-monitoring status, on the recommendation of the Degree Monitor)
Quality Committee	Monitoring and reviewing the effectiveness of the Degree Monitoring process.
Chair of Quality Committee	Monitoring the progress of actions planned by Curriculum Area in response to recommendations cited in the Monitor's Report.
